PHILIPPE NOUGOUE

Senior Planning & Project Controls Manager | Delay Analysis Specialist | Primavera P6 Expert | PMP®

20+ years EPC Mega Projects | USD 8B+ CAPEX Portfolio | Project Controls Governance | EVM | TIA / EOT | Greenfield & Brownfield

+237 677 481 161 | philip.nougoue@gmail.com | linkedin.com/in/philippe-nougoue-pmp-a1747b55 | Interactive CV: cv-pno-pro.vercel.app | Douala, Cameroon — Available for international assignments | Fluent English | Native French | Immediately available

EXECUTIVE PROFILE: Senior Planning & Project Controls Manager with 20+ years directing schedule, cost, risk and reporting governance on EPC/EPCC mega projects — CAPEX portfolio exceeding USD 8B (TotalEnergies, GE Vernova, Perenco, MODEC, Foster Wheeler). PMP® Certified | Oracle Primavera P6 Certified (Expert) | Integrated Master Schedule (IMS) ownership (~12,000 activities, 3.4M man-hours) | EVM | Delay Analysis (TIA) & Extension of Time (EOT) under FIDIC / SCL Protocol | Power BI executive dashboards | Greenfield & Brownfield, Onshore & Offshore | Fluent English, native French | Available for international assignments.

PROFESSIONAL SUMMARY

Senior Planning & Project Controls Manager with 20+ years of progressive experience governing the planning, scheduling, cost control, risk and reporting functions on EPC / EPCC / EPCM mega projects across Energy, Oil & Gas, Hydropower, Refinery, Pipeline and Offshore sectors — CAPEX portfolio exceeding USD 8 billion. PMP® certified (N° 4125591) and Oracle Primavera P6 Certified (Expert). Proven track record directing Integrated Master Schedule (IMS) development across programmes of up to ~12,000 activities, leading multi-disciplinary project controls teams, implementing Earned Value Management (EVM) governance, driving schedule and cost forecasting, and delivering executive-level analytics through Power BI dashboards. Recognised expertise in Critical Path Method (CPM), DCMA-14 schedule quality governance, Quantitative Schedule Risk Analysis (QSRA), Time Impact Analysis (TIA), Extension of Time (EOT) and claims substantiation under FIDIC and the SCL Delay & Disruption Protocol. Trusted advisor to Project Directors on greenfield and brownfield mega projects, onshore and offshore. Fluent English (international environments since 2006), native French. Immediately available for international assignment.

TARGET POSITIONS

Senior Planning & Project Controls Manager · Project Controls Manager · PMO Manager · Planning & Scheduling Lead · Delay Analysis / Claims Specialist — EPC Mega Projects

TECHNICAL TOOLKIT & CORE EXPERTISE

Planning & Scheduling	Oracle Primavera P6 / P6 EPPM (Certified — Expert, 15+ yrs) | Microsoft Project (Advanced) | Acumen Fuse (schedule diagnostics) | Primavera Risk Analysis (Monte Carlo / QSRA) | Asta Powerproject | Integrated Master Schedule (IMS) development
Project Controls	Earned Value Management (EVM — SPI, CPI, BCWS, BCWP, ACWP) | Cost Loading & Cost Forecasting (EAC / ETC / VAC) | Schedule Forecasting | Time Impact Analysis (TIA) | Claims Management & Extension of Time (EOT) | Change Management | Progress Measurement & Verification
Reporting & Analytics	Power BI — Executive Dashboards (SPI/CPI, S-curves, critical-path trends) | Excel Business Intelligence (Power Query, Power Pivot, DAX) | Monthly Progress Reports (MPR) | Weekly Progress Reports (WPR) | Steering committee reporting

Governance & Standards	Project Controls Governance | PMO setup & procedures | DCMA-14 Schedule Quality Assessment | FIDIC contract framework (Clauses 8.4 / 8.5 / 20.1) | SCL Delay & Disruption Protocol (2nd ed.) | NEC contract awareness | PMBOK / PMP® methodology
Project Types Delivered	EPC / EPCC / EPCM | Mega Projects (CAPEX up to USD 2.5B) | Greenfield & Brownfield | Onshore & Offshore | Hydropower | Oil & Gas (upstream, midstream) | Refinery Turnaround | Pipeline | FPSO | Power Generation | Portfolio / Multi-package Controls
Leadership & Interface	Led multi-disciplinary project controls teams (planners, cost engineers, package planners) | Directed schedule governance across simultaneous packages | Client & executive stakeholder management | Multicultural team coordination | Mentoring & capability building

PROFESSIONAL EXPERIENCE

Lead Planning & Project Controls Manager · GE Vernova — Nachtigal Hydropower EPCC (420 MW) | Client: NHPC · *Mar 2023 – Dec 2025*

CAPEX: USD 1.2B | Greenfield EPCC mega project | Lot EM1 Electromechanical | Consortium GE Vernova (leader) & Elecnor

- Directed the **Project Controls function** on a USD 1.2B greenfield hydropower EPCC — owning schedule, progress, cost performance, risk and executive reporting governance across Engineering, Procurement, Construction and Commissioning.
- Owned the **Integrated Master Schedule (IMS) in Primavera P6 (Levels 1–4) — ~12,000 planned activities** across a project baseline of
- Led a **multi-disciplinary planning and project controls team**, defining responsibilities, reporting rhythm, deliverables and quality standards; mentored team members on P6 methodology and DCMA-14 schedule quality governance.
- Governed **Earned Value Management (SPI, CPI, BCWS, BCWP, ACWP)** and cost forecasting; produced Weekly (WPR) and Monthly (MPR) Progress Reports and Power BI executive dashboards for GE Vernova management, the consortium and Client NHPC.
- Drove **recovery and acceleration planning** on the commissioning critical path; oversaw site manpower planning across a workforce of
- Authored the **Time Impact Analysis (TIA) and Extension of Time (EOT) submission** under FIDIC Clauses 8.4 / 8.5 / 20.1, applying the SCL Delay & Disruption Protocol (2nd ed.) methodology.

✓ KEY ACHIEVEMENT: Directed schedule governance on a USD 1.2B greenfield EPCC — ~12,000-activity Integrated Master Schedule, 3,427,016 man-hour baseline; delivered a fully substantiated 49-calendar-day EOT claim under FIDIC/SCL Protocol; maintained cumulative SPI at 0.93 with structured recovery planning on the commissioning critical path.

Senior Planning Lead — Multi-Package Portfolio Controls · TotalEnergies — Republic of Congo · *Jan 2022 – Feb 2023*

Portfolio CAPEX: USD 1.5B+ | 4 simultaneous offshore packages: ALIMA, NKOSSA, SENDJI, DJENO | Brownfield offshore

- Governed the **project controls function across a USD 1.5B+ portfolio** of 4 simultaneous offshore Oil & Gas packages — consolidating package-level schedules into portfolio-level reporting for TotalEnergies executive management.
- Directed **package-level planners** and standardised planning methodology, progress measurement and reporting across all four packages.
- Oversaw **EVM tracking, schedule variance analysis, cost forecasting and risk assessment**; chaired steering committee schedule sessions; managed stakeholder commitments across contractors, subcontractors and marine logistics providers.
- Drove **recovery planning** where slippage was identified; escalated supply chain bottlenecks with mitigation actions to senior management.

✓ KEY ACHIEVEMENT: Delivered all 4 offshore packages with less than 3% schedule deviation across a USD 1.5B+ portfolio — full contractual and reporting compliance.

Planning Manager — Pipeline EPC · Perenco — Cameroon · *May 2016 – Jan 2019*

CAPEX: USD 600M | 100 km Onshore/Offshore Pipeline | Greenfield EPC | 33-month assignment

- Led the **planning and project controls function** on a greenfield 100 km onshore/offshore pipeline EPC — direct interface with the Perenco Project Director and international contractors.
- Owned the **Primavera P6 baseline schedule** with WBS, resource and cost loading, S-curves; governed EVM tracking and monthly cost & schedule reporting.

- Directed **contractor schedule review and progress measurement validation**; chaired weekly lookahead and review meetings; escalated risks with corrective action plans.

  ✓ **KEY ACHIEVEMENT: Delivered the pipeline EPC on contractual schedule across a 33-month assignment, with HSE compliance sustained above 98%.**

Project & Planning Engineer — Power Plant Redevelopment · TotalEnergies — Gabon · *Mar 2012 – May 2013*

CAPEX: USD 2.5B | Anguille Power Plant redevelopment | Brownfield | Port-Gentil

- Managed planning and progress control on a USD 2.5B brownfield power plant redevelopment; integrated commissioning and start-up sequencing into the Primavera P6 schedule.

  ✓ **KEY ACHIEVEMENT: Contributed to schedule governance on the largest-CAPEX project of the portfolio (USD 2.5B).**

Project & Planning Engineer — Refinery Turnaround · Friedlander — Foster Wheeler — Cameroon · *Oct 2011 – Feb 2012*

CAPEX: USD 600M | SONARA Refinery Turnaround (TAR) | Brownfield | Heavy maintenance

- Planned refinery turnaround operations — multi-discipline maintenance and inspection sequencing (mechanical, electrical, instrumentation); managed Permit-to-Work integration and progress reporting to management.

  ✓ **KEY ACHIEVEMENT: Delivered the refinery turnaround within the contractual shutdown window with full HSE compliance.**

Project & Planning Engineer — FPSO Commissioning · ORSAM Oil & Gas — MODEC (Japan) · *Jun 2013 – May 2014*

CAPEX: USD 250M | FPSO MV21 Kwame Nkrumah | Offshore Ghana | Gas/Oil production facility

- Developed and controlled the commissioning and start-up schedule for the FPSO MV21 — system/subsystem completion sequencing, hook-up & commissioning phasing, RFSU milestones; performed EVM tracking and executive reporting to MODEC management.

  ✓ **KEY ACHIEVEMENT: Delivered FPSO commissioning and handover on schedule in a fully international (Japan/Ghana) working environment.**

Project Manager (Planning, Project Controls & Tendering) · Prunus Engineering — Cameroon · *Jan 2026 – Present*

Industrial & infrastructure projects | International railway supply tender: 512.7 km UIC 54 rails (~USD 40M, World Bank financed)

- Directs **project schedules, cost monitoring, progress reporting and stakeholder coordination** across industrial and infrastructure projects.
- Leads a **strategic international railway supply tender** — 512.7 km of UIC 54 rails (~USD 40M, World Bank financed) — governing tender schedule, commercial structuring and compliance review against World Bank procurement standards.

EARLIER EXPERIENCE

- **Mar 2019 – Dec 2021** | **Prunus Engineering — Cameroon** – Project Manager – *Industrial O&G projects — SCDP, Schlumberger, Halliburton, Perenco*
- **Feb 2015 – Mar 2016** | **Foure Lagadec — Gabon** – Planning Engineer – *Perenco offshore platforms revamping (USD 300M) — Port-Gentil*
- **Jun 2006 – Mar 2011** | **Shipyard & Industrial of Cameroon** – Planning Support – *TRIDENT 14 drilling rig revamping & SAIPEM Tad — heavy industrial operations*

KEY PROJECTS — INTERNATIONAL EPC PORTFOLIO (USD 8B+ CAPEX)

Project	Client / Contractor	CAPEX	Role	Type
Nachtigal Hydropower EPCC (420 MW)	GE Vernova / NHPC	USD 1.2B	Lead Planning & Project Controls	Greenfield EPCC
Anguille Power Plant Redevelopment	TotalEnergies Gabon	USD 2.5B	Project & Planning Engineer	Brownfield
TotalEnergies Congo Portfolio ×4	TotalEnergies Congo	USD 1.5B+	Senior Planning Lead	Offshore Portfolio
100 km Pipeline EPC	Perenco Cameroon	USD 600M	Planning Manager	Greenfield EPC

Project	Client / Contractor	CAPEX	Role	Type
SONARA Refinery Turnaround	Foster Wheeler / Friedlander	USD 600M	Project & Planning Engineer	Brownfield TAR
Perenco Platforms Revamping	Foure Lagadec / Perenco	USD 300M	Planning Engineer	Offshore Brownfield
FPSO MV21 Kwame Nkrumah	MODEC (Japan) / ORSAM	USD 250M	Project & Planning Engineer	Offshore FPSO

EDUCATION

- **MBA — Business Engineering & Strategic Management** — EPIM Afrique — Ongoing — 2026
- **Bachelor of Engineering (B.E.) / HND — Mechanical Engineering** — University of Douala / ENSET, Cameroon — 2007–2008
- **Postgraduate Diploma — Process Design Engineering** — Magnus Global Tech, India — 2013–2014
- **Postgraduate Diploma — Piping Design Engineering** — Magnus Global Tech, India — 2013–2014

CERTIFICATIONS

- **PMP® — Project Management Professional** — Project Management Institute (PMI, USA) *(Cert. N° 4125591)*
- **Oracle Primavera P6 Certified** — TMR Project Consulting
- **Professional Planning Engineer (PPE)** — Planning Engineer EST, Egypt *(ID 1882)*
- **Claims Management, EOT & Delay Analysis** — Planning Engineer EST, Egypt *(ID 1907)*
- **Primavera Risk Analysis — Monte Carlo (QSRA)** — Advanced probabilistic scheduling
- **Power BI & Data Analytics** — Executive project dashboards & reporting
- **Excel Business Intelligence** — Power Query, Power Pivot, DAX

LANGUAGES & LEADERSHIP ATTRIBUTES

Languages: English — Fluent professional working proficiency (international environments since 2006: GE Vernova, MODEC Japan, Foster Wheeler UK/USA) | French — Native

Leadership Attributes: Directs project controls governance across complex portfolios · Trusted advisor to Project Directors · Leads and mentors multi-disciplinary teams · Drives recovery and acceleration strategies · Governs executive reporting and client interface · Operates effectively in remote and multicultural environments · Immediately available for international deployment
